Tools & Accessories	36
---------------------	----

It all started with a cocotte

In 1974 Francis Staub set out to create high-quality kitchenware for ambitious chefs – and the first cocotte was born. Four years later the design was perfected, and the cocotte has maintained its position at the heart of STAUB ever since.

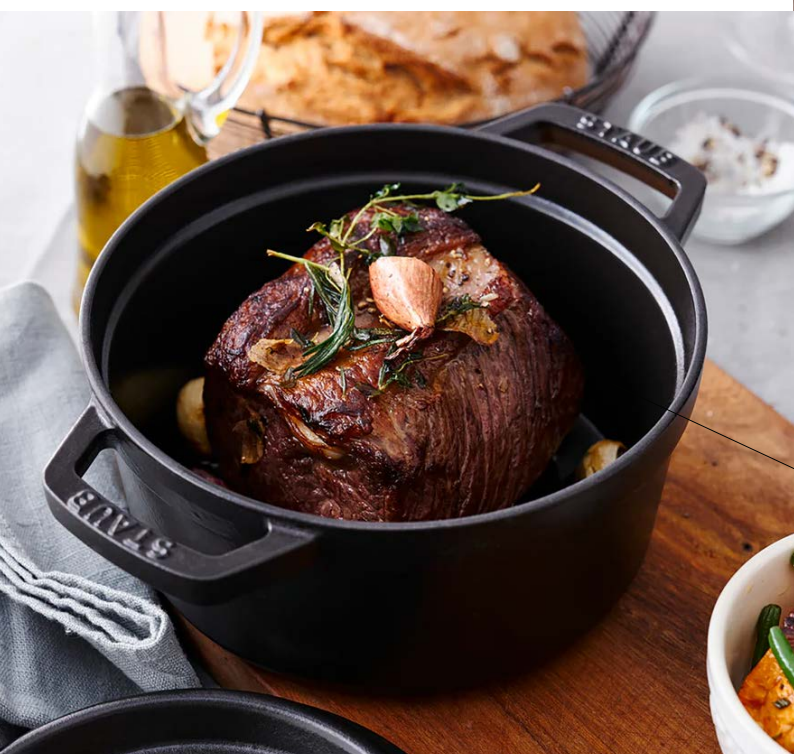

The iconic cast-iron cocotte is the perfect tool for every ambitious chef, whether at home or in a restaurant kitchen. Beyond this masterpiece, the STAUB product range is crafted to inspire you to infuse love into every dish and cherish the moments shared around the table with loved ones.

Made in France

Only cookware made of the highest quality materials according to the principles of traditional craftsmanship is good enough for preparing French culinary masterpieces. This is why France is also the home of outstanding cookware – the home of STAUB.

Just like the stork, STAUB comes from Alsace, France. This is why the stork has found its place in the logo – making it an ambassador for the attention to detail, impeccable taste, and timeless design of every product.

An inside that makes a difference

The inside of all STAUB cocottes is made of high-quality textured matte black enamel. The enamel works like a micro grill, bringing out delicious roasting flavors. It also provides the ideal conditions for roasting, frying and caramelizing foods with its rough surface.

It's all about the lid

Each cocotte has a uniquely designed drop structure on the inside of the lid called “Aroma Rain”, or “picots”. It works like a rainforest effect where the steam rises, condenses and drips evenly back over the food. The result: incredibly juicy and flavorful dishes

- Up to 20x more even moisture redistribution and 50% more liquid thanks to the optimized lid weight
- More intense flavors as each ingredient retains its full flavor
- Minimizes the risk of burnt food and the need for monitoring

STAUB x Buster + Punch

Half French. Full English — A Full-on French/English collab

The partnership of STAUB and Buster + Punch is a thrilling meeting of French culinary heritage with London's masters of metal. STAUB's iconic cast iron frying pan and cocotte are elevated by Buster + Punch's signature design – the cross-knurled handles – embodying London's energy and attitude and bringing it onto your table.

As part of the collaboration, English rapper Professor Green and two-Michelin-starred London chef Tom Sellers have joined forces to celebrate and promote another cultural icon: the Full English Breakfast, which can be cooked to perfection and served straight from the cocotte or frying pan. The collaboration demonstrates both brands' strong belief in the power of food and cooking to bring people together, as well as the timeless nature and longevity of the products, which are often passed down through generations as a heirloom gift.
